

Bird Inventory for Kahuku, HAVO

PIERC Project Leader: Thane K. Pratt

Map of transects surveyed in the Kahuku section of Hawaii Volcanoes National Park. Map by Marcos Gorresen.

Objectives:

- ☆ estimate distribution and abundance of all species of land birds
- ☆ stratify sampling to emphasize native forest birds

Accomplishments:

- ☆ surveys completed in 2005
- ☆ important populations of native species surveyed
- ☆ data entered and analyzed; report in progress

Significance:

- ☆ the new Kahuku Unit brought important endangered bird habitat to Hawaii Volcanoes National Park
- ☆ this survey establishes a baseline for long-term monitoring
